What is Sports Recovery IV Drip ?

Sports Recovery IV Drip is a **medically supervised hydration & wellness support treatment** to support recovery after training & physical exertion

Why AWAM Clinics?

At AWAM Clinics, recovery support is delivered in a **professional clinical setting** under proper medical supervision

Your session includes:

Medical screening

Suitability assessment

Professional, safe and responsible wellness support

This ensures your recovery support is appropriate, safe & tailored to your needs.

It is designed to support:

Hydration & electrolyte balance

Faster muscle recovery after training

Reduced fatigue & improved performance

How it works?

Step 1 - Book Your Appointment

Athletes & interested individuals may schedule a session with **AWAM Clinics**

Step 2 - Consultation & Screening

A **qualified healthcare professional** will assess your suitability

Step 3 - Recovery Session

If suitable, your **Sports Recovery IV Drip** will be **administered at the clinic**

Step 4 - Return Stronger

Continue your training & active lifestyle with **better recovery support**
